- While standing on the side table in either the lobby or drawing room at noon, there is a chance to find a mug. Interact with it

- Lobby Couch
 - Same as Hallway
 - If you're on her seat (before she's there) and rest you will get a buttcrush scene
 - Climb Tina to get on the couch, from there you can reach the side table and acquire the paper clip (lever)

 - Will toss you in the pool, at Olivia, or in the air if she notices you

 - You can interact with her foot for some content relating to that
 - You can pop her floatie (WTF, why?!? So mean)
 - She'll storm off in anger and roam around the pool. Will stomp you on sight or try to grab and eat you (hide in a visible area for greater chance to be grabbed)
 - Note, small bug where she doesn't re-appear at the pool. Just try again the next time (I think it might either be tied to the first time you do it or tied to Sunday)

 - If she's in a good mood and catches you she'll eat you
 - Sometimes if Gwen puts you in her mouth she won't swallow immediately (also applies for Dining Room and Pool)
 - Small chance to survive if you cooperate
- Dining Room
 - If you stand in her plate and pick up a tomato you get a slightly more unique vore scene (and mouthplay)
 - If Roxanne hands you to Gwen she'll either eat you or smush you
 - If Gwen finds you she'll either eat you, smush you, or hide you in Roxanne's food/drink
 - Unaware vore if you hide in her salad
- Pool
 - Gwen will eat you if Joanne isn't present
 - To get to Sauna event Joanne has to be present and need decent affection
 - Interact with Gwen and when asks if you want to go for a swim or says, "You're a little fighter, aren't you?", respond with => "Goddamn right!"

- Survive being tossed at Joanne (either land in the pool or hang on to her tongue ring) and return to Gwen
 - Talk to her again and she'll put you in her bikini top
 - While in her bra cup, you'll have to massage her skin (You'll need the vibrawand)
 - Breastplay event
 - Massage her (twice) until she says this is your last warning
 - Escape out of her bra cup and climb along her bikini towards her back
 - Don't stop under armpit or you'll get squished
 - Talk to her to get to Sauna event (see Sauna bullet point); Fall down her back and slide into her bikini
 - You can massage her asshole for anal vore scene (ending in either death or you passing out when she cums and you'll wake up in the showers) or cut yourself out of her bikini (she'll be pissed)
 - If you chose the latter she'll chase you around the pool trying to stomp you
- Sauna
 - Major foot worship scene
 - Semi-required to get to anal
 - Be a good tiny and worship hard
 - If you skip foot worship (just climb her toes) or if you've just generally been kinda lame, boring, or otherwise unimpressive (not high affection) she'll probably just eat you
 - Survive the anal scene (be warned, takes a lot of stamina and health) and you'll wake up with her showering
- Showers
 - When she's turned away you can use a rope to sneak down. She'll notice you're sneaking off and shove you up her ass, *again!*
 - Lasts only a short while. She'll leave you in the locker room when she's done showering (but you will be stinky)
 - Climb the soap a few times and she'll use you to clean herself
 - Results in being between her breasts. Certain actions (massaging) will make her take it as a challenge, and she'll smoosh you (low damage) between them
 - Going down will result in you tumbling down her body and into the water. She'll save you and conclude the scene
 - You will appear in the locker room (talk to npc to get to Shark Shack)

Roxanne

Schedule:

- Dining Room – Afternoon (M Tu W Th F)

Content: OV, MP, S*, Misc

- Dining Room

 - Gwen will either eat you or smoosh you
 - Can explore her body
 - Can climb onto her plate
 - Climb into her burger for foodplay and unaware vore scene

Olivia

Schedule:

- Library – Morning + Noon (M Tu W Th F Sa)
- Pool – Afternoon (Tu W Sa Su)
- Drawing Room – Afternoon + Evening (Th F)

Content: C, F, B, S*, OV, AV, UB, MP, Misc

- Introduce yourself in the Library
- Library and Drawing Room
 - Unaware crush
 - Will eat you if she's hungry
 - If you've willingly fed yourself to her in the past, there's a chance for a unique willing vore scene with her
 - If she finds you and her mood is not hungry or playful she will put you in her shoe
 - Foot worship scene, with slight dialogue variation if you return to her on a different day. Can survive, can also end in squish or suffocation
 - If she finds you and she's playful she will place you in her apron for later
 - You can explore her clothes, and if you make it to her shoulder and go down to her breasts there's a breastplay/crush scene
 - Resting in apron takes you to bedroom (see next bullet point)
- Olivia's Bedroom
 - Can escape by investigating sock, asking Helga for help, and making a break for it
 - When Olivia is about to enter the room, find a good hiding spot
 - Poor hiding spots are usually an immediate loss (especially ones right by the door) – meaning Helga abandons you and you get eaten
 - If you found a good hiding spot and she finishes her chat with Theo you can
 - Get crushed unawares
 - Get chased leading to a crush scene
 - Get grabbed and eaten (if you have high affection you can ask to be let go and she might acquiesce)

- If she eats you, survive in her stomach for a long time for several unique interactions
 - If the player is female, they can *comfort* Helga
 - To escape, investigate her outfit and take the chapstick
 - Head to the bathroom, click on chapstick in inventory and yeet it, then find a good spot to hide
 - Run to hidden vent behind the curtains in the bedroom and go go go
 - Note, the quest Helga gives you at the end of this is incomplete
- Rest on the sock to progress (will likely need to do so multiple times)
- When Olivia appears, you can volunteer for a mouthplay scene. Asking what you're volunteering for or staying quiet causes her to pick someone at random to have in her mouth, it's usually Theo though.
- Note, before she swallows someone she is clothed and this will be referred to as phase 1, after she swallows someone (other than you) she will undress, I will refer to this as phase 2
 - While in her mouth, certain actions can raise affection (e.g., bashing tongue)
 - You can talk to her to spice things up as well
 - She'll ask you to feed yourself to her if you're especially enthusiastic (she will remember your willingness)
 - Surviving the mouthplay scene typically results in Theo being eaten and begins phase 2
 - If you were not selected for mouth duty, you can listen to her stomach or throat multiple times (low affection will cause her to eat you, high affection will cause her to eat Theo, super high affection and if Helga is in her mouth will cause her to swallow Helga)
 - If you just generally move around and lightly interact with parts of her body during phase 2 she'll eventually shove you in her pussy (or small chance to be shoved up her ass or to eat you). Survive the encounter for a huge boost in affection and eP.
 - If you keep interacting with stomach or throat there's a chance she'll send you down to join the other tiny
 - Interact with her nipple for special breast-play event
 - If you tickle her throat while Helga is in her mouth she will swallow Helga and shove you up her ass as punishment
 - Bash her stomach after she's eaten someone to upset her. She'll then toss you on the floor and grind you underfoot while fucking herself with a dildo
 - There's a chance to willingly feed yourself to her at some point during this scene
 - You can interact with her clit during phase 2

- If you climb her thigh too many times during phase 2 she will yeet you (insta-death)
 - Climbing down her panties (phase 1) ends in buttcrush. During phase 2 you can climb down her pussy, then either inside or keep going which ends in anal
- Pool
 - Will try to eat you if you pass by the pool and you're noticed
 - Tina can throw you at Olivia
 - Will try to grab you if you swim past her
 - Depending on your dialogue choices (and affection) she'll eat you or let you go. You can go to the shower with her if you have good affection and make certain choices:
 - I'm not trying to be a snack
 - God damn you're cute
 - So let's hang out?
 - Note, once in the shower anything other than the obvious vore end is incomplete

Stephanie

Schedule:

- Pool – Morning (M Tu W Th F Sa)
- Patio – Noon (M Tu W Th)
- Bar – Night (F Sa)

Content: S*, MP, F, C, Misc

- The Pool
 - First encounter with Stephanie at the pool has some small unique scenes
 - Make sure you tie a rope from the lounging chair to the floor (this can be hard to do since you'll need to sneak past her hand and avoid being noticed). If you do not do this you will be locked out of future interactions with her at the pool (currently). Don't worry if you missed it, the interactions here are all *nearly* identical to the ones at the Patio.
 - Not too much to do here. You can listen to her stomach or rest on her. If you touch her skin (face via climbing hair) or her thigh (sneaking past hand and going south) will immediately trigger a scene where she catches you.
 - Depending on her mood/affection and your dialogue choices she'll react differently to you disturbing you. From being bored and tossing you to the pool, to giving you a kiss and a taste. (Note, there is no way for her to eat you currently)
 - If you piss her off by harvesting her bikini you'll get some unique dialogue and typically tossed in the pool.
- Patio
 - Mostly the same as at the pool

- Climb the vines and go around until you can get to the chair, you can set a rope from the chair to the ground to make future interactions easier
 - If you climb up you'll have the chance to shimmy towards her breasts. When she finds you she'll typically become very upset and throw you at Joanne (mini-game)
 - If you go down and interact with her thigh there's a chance to be crushed beneath it
 - Otherwise mood, affection, and prior choices dependent
 - If you climb her feet she'll try to grab you (when she notices you), if you dodge she'll become increasingly more upset with you
 - Talking to her multiple times while on the ground (not on her feet) will cause a foot stomp scene, causing some damage
 - If you repeat this process enough times she will smush you
- The Bar
 - Just chilling looking pretty

Joanne

Schedule:

- Pool – Morning (M Tu Th F Sa) + Evening (W)
- Patio – Noon (M Tu W Th)
- Bar – Night (F Sa)

Content: OV, F, C, S*, Misc

- The Pool
 - If you walk along the pool and get noticed by Joanne she will always try to eat you
 - In the pool she will either eat you or play with you a bit by throwing you around
 - If she catches you she'll either throw you again or eat you, but with high enough affection she'll chat instead
 - If you say nothing (...) when chatting she'll offer some interesting info
 - Special vore scene of her catching you from below like jaws if she vanishes beneath the water
 - If she drops you in her mouth you can try to grab her tongue ring, success leads to a shower scene
 - Interacting with stuff (hiding, talking, climbing soap) advances scene. When she leaves she'll usually eat you, but if you have high enough affection you'll have the option to live
 - Survive in her stomach long enough and you'll get a unique scene
 - If you climb down to the shower floor (need rope) you can get different view of her and a foot crush scene
 - Technically you can sneak out of the shower and explore the locker room from here as well, but this will be patched (intended locker room discovery is via Gwen's route)

- If you leave the shower you can not go back (unless taken there)
- Patio
 - Will flick you away when you interact with her hand. Do it too much and she'll eat you
 - Interacting with her foot results in a foot crush/smother scene
 - Will eat you for fun, because you're annoying, or because you've upset Steph
 - Someone else in her belly
- The Bar
 - Will briefly chat with you when she catches you
 - Usually ends with her eating you unless you have high affection

Tips and other Things

Resting on certain surfaces (e.g., chairs) will increase stamina recovery and can sometimes lead to special scenes. Some items (e.g., napkins in aprons or socks in drawers) will pass the time and result in something happening.

Rope is your most valuable resource. Craft it like crazy and place it every chance you get.

Be curious! Talk to everyone multiple times; Explore areas; Test things. The guide covers a lot of stuff but you never know what you might find.

Cheats break the game. I know it's tempting but it will cause problems. Many of the quests will break, potentially locking you out of unique interactions.

Search and Harvest spots refresh after a while, so don't forget to check again! Searching specifically is rng, so don't dismiss an area out of hand just because you haven't found anything useful there before.

Shark Shack Sigil is currently broken, so unless you're trying to repeat content in that general area it's better to bind yourself to a different sigil location.

Some scenes have variations. Sometimes this is simply rng, sometimes this is based on prior choices, sometimes it's mood. The guide doesn't specify which because that would both be very exhausting for me and remove some of the magic for you.

Brush your teeth at least twice a day. Brushing your tongue helps too. Don't forget to floss, and preferably before you brush. Dental hygiene is important! There are studies that suggest poor dental health is correlated with worsened mental health and tied to overall sexual dysfunctions, so it will benefit you in many many many ways. This doesn't relate to the game specifically, but it's a very valuable tip all the same.

If spiders trigger you, there's an arachnophobia setting in the menu.

Different weapons have different properties, so if certain enemies ~~fucking mosquitoes~~ give you trouble, try something else.

The Pantry raid can be pretty hard so make sure you're stocked up on potions, good gear, spend your ep with Rene to increase stats, and have the grit mechanic.

Full corn suite will negate all acid damage, but you can still suffocate or take physical damage in the stomach. You can also last longer in the intestines if you manage to get there, but there is no special content.

Talk to Vanessa and Clara in the mouse tunnels before Pantry Raid for minor dialogue variations

FAQ

How to get to the locker room?

Survive the Gwen Sauna scenario (intended way to get there) . The drain, Joanne's shower scene, and Olivia's shower scene are currently also potential ways to get there

Do paperclips and bobbypins respawn?

The paperclip does not respawn, the bobbypins do.

Will there be fulltour?

Yes

Will there be unbirth/going into the womb content?

No womb content

Will there be fart content?

Maybe, but only as a joke, no serious fetish related content

Will there be toilet content?

No

What is eP and sK?

Ep is effort points. sK is money. Trade Ep for stat gains with Rene at the gym. Spend sK for cool shit

How do I level up?

You don't level up. You get better gear, stat gains with Rene, and find extra hearts by exploring and finishing quests.

How to get duster?

Get duster by crafting one, the key ingredient being feathers. There are a ton of feathers under the stage on your way to the pantry.

How to get vibrator?

Craft a battery. Need a shovel from sanctuary, which requires aluminum to make forgefoil. Dig up dirt mounds in the grass jungle to uncover copper. Get acid from being eaten (you will need empty bottles).

What's the Shark Shack Password?

Vore Day (that's your hint, now go forth and figure it out)

Does each garnish on the bar have a special interaction?

Not currently. Only the cherry when interacting with Nemara

Where do I get gum, sulphur, fire powder, and copper?

Gum is a rare drop found by searching random things. Sulphur is a rare drop in dirt mounds. Firepowder is a rare drop in dirt mounds and can be framed from fireflies at night. Some tiny NPCs might sell them too, Scuba in the Shark Shack especially.

Where do I get wood?

Down your pants, dumbass. On a serious note, using the axe on most wooden surfaces is an easy way to harvest wood. You can also buy it from Gregor at the Sanctuary or sometimes as drops in the Red Garden.

Which quests are currently incomplete?

Letter for Liem and Over The Wall are incomplete, as well as crafting the flashlight with batteries. Pantry Quest has a bug where it sometimes remains in your "in progress" tab.

Can I do anything with Helga as a tiny male? As a tiny nb?

You can really only interact with Helga if you're female.

Does the hole in the sharkshack do anything?

The hole in the shark shack does nothing and probably never will. The hole in the floor under the stage is much more interesting though

Is it possible for Stephanie to eat me?

Not in the current build

Do saves transfer?

Usually, and you don't even need to do anything! It's saved in your userfiles. Major builds/updates might cause issues depending on the variables, but that's a bridge to cross when we get there

You mentioned cheats?

You can enable the debug menu in settings. As I mentioned, **they can break your game** so don't abuse it (especially teleporting), and try not to use them until you've at least reached Sanctuary. If you right click on the 'Type command here' section you'll have a list of some debugs. There are more, if you snoop around on the discord. To increase affection, the debug is typically [name]_aff (e.g., tina_aff) – does not work with everyone and can lock you out of some scenes

I have a question that wasn't addressed here?

Go to the discord and use the search bar, see if someone else has asked it before. If not, ask in the appropriate channels and we'll try to help you as soon as we can

Is there more content after version 2.3.1?

Yup, check out the Patreon for more info about new dev builds and what they include!

Special thanks to Giga, for the game and helping with the guide; Ocean for filling in some gaps; Soph for a lot of the schedule work; and N just because they're cool (and all the other goobers on the discord)
