

Size Matters

All the game events:

-Demon Lord event

(The battle is just there to show how weak Tinies are, so there aren't really any forced battles besides this one).

-Demon Lord (Mao) invasion event

Starts when you come return from the cave to the east.

-Panties pet event

Approach the twintailed girl walking around the city while tiny.

-Bob-cut girl stomping event

Approach the bob-cut haired girl walking around the city while tiny.

-Loli event

Approach the little girl walking around the park while tiny.

-Peeping Tom event

Change into the school uniform at the hotel's toilet after obtaining it from the bath area.

-Loli buttcrush event

Climb on top of the chair in the hotel's changing area in the 1st floor.

-Futanari piss event

Enter the vent duct in the hotel's 2nd floor and peek into the toilet near the entrance

-Futanari teacher event

Approach the bespectacled teacher in the hotel's 2nd floor while tiny.

-Onako event

After seeing the girl buy Tinies from the city's Tiny Shop (wait in the shop for a few seconds), enter the vent duct in the hotel's 2nd floor and use a Small Potion to sneak into the girl's suite from the second vent duct deeper inside.

-Megumi growth event

Use a Big Potion to grow for the first time.

-Tiny refuge event

Approach the Tiny in the southwestern part of the city and take him with you or crush him while giant to enter the hut in the northwestern part of the city.

-Busty onee-san event

Drop into hole below the vent duct used during Onako's event.

-Divine punishment event

Go to the bandits' hideout in the Human Realm while playing as giant Megumi. The event won't start unless you're wearing the school uniform (otherwise the art wouldn't have matched).

-Pussy press event

Approach the girl in the hotel's bathhouse while tiny.

○ **School events**

-Blonde ojou stomping event

Approach the blonde girl right after entering the school.

-Contact lens girl

Sleep at the inn in Jihan City without giving the girl her contacts.

*Jihan City will be permanently destroyed after this event.

*You can't see it if you do give the girl her contacts.

*I might add more drawings for some of the scenes (the moment of the invasion, etc.) later on.

-Cheating girl event

Go to the classroom in the school's western wing and approach the black haired schoolgirl while tiny.

-Steak stealing event

Learn about the food crisis in Jihan City and climb on top of the table in the school's cafeteria through the chair.

Keep stealing steak pieces (there's a 1/5 chance of getting found each time).

You can trade the steak pieces you've found at Jihan City for some money.

-Test (boob crush) event

Approach the girl at the leftmost corner of the classroom while Tiny (and fail the test).

-Buttcrush event

Approach the green-haired girl walking around the school's western hallway while tiny (or just walk by her; she'd probably catch you either way).

You can view variations of the normal drawings for this event by talking to the girl while playing as giant Megumi and then approaching her again while tiny.

-Stomping event

Approach the bespectacled girl by the school's entrance while tiny.

You can view variations of the normal drawings for this event in the same way as the above event.

-Ramen event

Purchase Lunch Set B. The event has a 1/3 chance of starting upon eating it.

-First x-ray event

Approach the blue-haired girl after returning the contact lens to her while tiny (she can see Tinies now thanks to the contacts).

To use X-ray, buy the X-ray Tome sold at Jihan City, and press C while looking up at the girl to see through her clothes for 10 seconds at a time (costs 100 MP).

-Infirmary gyaru event

After the contacts event, go to the town below the ventilation fan to the left of the school building, obtain the Time Bomb, enter the infirmary while tiny, wait for the girl to fall asleep and then approach her.

-Perverted girl event

Approach the girl at the school's 2nd floor by the stairs (the drawings are different depending on whether you approach her without her noticing you or got discovered by her).

-Raising Club Member event

Approach the girl in the Tiny Raising Club in the school's 2nd floor's eastern pathway.
The Nylon String necessary to clear this event can be found in the 1st floor's faculty office.

-Onahole game event

Approach the girl in the 2nd floor's library while tiny.

-Insole crush event

Approach the girl standing in front of the shoe rack by the school's entrance while tiny (can only be seen after clearing the gyaru's event).

-Megumi event

Go to the infirmary after visiting the Mini-garden once; the nurse will be gone.
Inspect the cake on top of the table to start the event.

-Building buttcrush event

Inspect the small building at the Mini-garden's left side while giant.

-Piss event

Approach the blue-haired girl after giving her her contacts.

-Learning the Minimum spell

After obtaining the (Tiny Club) Membership Badge, talk to the club member in the classroom that's 2nd from top (western wing).

-Tiny capturing

Usually, approaching Tinies while being tiny yourself would start a conversation, whereas "approaching" them while giant would have Megumi crush them.

By equipping the "Tiny Ring" found in the Tiny Raising clubroom to Megumi, however, you may select several other methods of disposing of them.

Tinies vore

Press the R key (or simply wait some time) after having caught and brought along a number of Tinies with you (up to 5).

Tinies hand-crush

Same as above.

-Conversation between the Demon Lord and her underling (no drawing)

Starts after escaping from Megumi's vagina.

-Flat-chested ojou event

Talk to the girl in the music room while tiny. The event changes a bit depending on whether or not you've previously talked to the girl while playing as Megumi.

-Tiny sheltering

Survive the insole event and the orange-haired girl will start appearing in the Mini-garden. You can increase your karma by catching Tinies and bringing them over to her.

-Banana slipping event

Step on the banana peel in the school's 1st floor's northwestern wing.

-Pubes forest event

Enter the storage room in the northeastern part of the school and approach the red-haired girl while Tiny. (She peeks outside the room every few seconds; to enter the room while Tiny, you'll need to sneak in while she's holding the door open)

-Giantess invasion event

There's a hole in the gymnasium area's storage which you can enter while Tiny to get to a portal to the Human Realm.

Once you're in the human realm, enter the castle, talk to the king, watch the scene where the two schoolgirls enter the Human Realm and then go back to the cave that leads to the school.

-Toothpick event

The girl from the Tiny Raising Club is worried about something in the school's 1st floor's northern area; approach her while playing as giant Megumi to start the event.

-Divine punishment event

Talk to the club president, accept her request, and go to the city in the Mini-garden's southern area (next to the slums).

You can play the Building Picking minigame by inspecting the building while in possession of the Fruit Fork obtained after the toothpick event.

-Building picking event

Skewer and eat the bad guys (and/or innocents) by inserting your fork into the building's windows. (Due to Megumi's cruelty, your karma may ultimately be affected by doing this event.)

You can have Megumi be either gentle or cruel depending on the events you choose to do, which will affect your karma value. I plan on making this value be a deciding factor in the course and activation prerequisites of some future events (as well as the contents of certain conversations). NOTE: Uru never did that; he abandoned the game's development.

-Giantess Invasion continuation

The two events triggered by entering the castle and the town now be viewed to completion.

You can battle the girls while Tiny. You can't win; only put up a futile struggle.

You can also battle the girls while playing as giant Megumi and defeat them, thus clearing this event and activating a new scene.

-Pubes Forest continuation

The continuation to the Pubes Forest event.

Enter the vagina after arriving at the clitoris to start the new segments where the smaller giantess arrives.

You can survive the event by reaching the uterus without touching the vaginal fluids too many times.

-2nd divine Punishment event

Added a few selections. The event is not complete yet, but I'll finish it after drawing 1 or 2 more illustrations and adding dialogue variations.

The last selection can only be chosen if you equip the "Libido Earrings" found in the top right corner of the town beforehand. This placement is temporary.

-Panty entrapment crush event

There's a hallway leading east in the school's northern wing. There's a locker room there; inspect the panties on the floor while Tiny.

-Catch event

First, enter the headmaster's office.

To enter, pick up the card key at the 2nd floor's northern wing, go to the city in the sewers, talk to the man and disable the security camera.

You can enter the headmaster's office even without disabling the camera, but it will lead to a game over. [You can normally only do all this after seeing the Unbirth and 2nd Divine Punishment event, but there's a blue button by the headmaster's office which allows you to do it even without seeing them].

If you hang around the office for a bit after disabling the camera, a conversation event with the Demon Lord will play. Afterwards, approach the maid (while either Tiny or giant) to start the event.

Incidentally, if you take the glasses on the table before starting the event, the maid will be without glasses during the event.

-Shower event

Enter the headmaster's office. Wait a little bit while Tiny and the maid will start moving towards the bath. Follow her, and approach her once she's directly in front of the shower (approaching her before that will trigger the Catch event).

-Bath event

Starts by getting in the lifeboat.

After a set times of times, the maid will say that some part of her body itches. Scratch it within one minute.

If you do it 3 times in a row, her pose will change, allowing you go inside the drainage that her right hand was hiding. You can go back to the sewers from there if you took the weapon's blueprints from the ship in the top right corner.

If you ignore her when she asks you to get her itch, you can start the pussy grinding event. If you ignore that, too, you get an instant game over.

-Pussy grinding event

Starts when you ignore the maid once. Go to the edge of the bathtub by climbing her right arm.

During the scene where her pussy chases you, if you get crushed after she reached her 3rd speed, you'll get an additional scene.

Incidentally, you can't survive this event (ignoring her once is a guaranteed game over one way or another).

-Fatty (Marshmallow) event

The girl from the Giant Invasion Event will be in the 2nd floor's eastern wing (after seeing her event), and if you talk to her, Marshmallow will appear in the 2nd floor's northern wing.

If you approach her without being seen while Tiny, you can hear her say the password to the headmaster's office.

If she does catch you, she'll start chasing you, triggering the event once she manages to catch you.

-Bonus drawing event

You can view the bonus drawing by talking to the girl in the upper area of the art classroom.
I can't stress the "bonus" part enough. Gore warning.

-Accidental vore event

A continuation of the toothpick event from a while ago.
Activates if you take too many turns to clean the food scraps.

-Foot climbing event

Approach the green-haired schoolgirl in the locker room while Tiny.
You can X-ray the first toe-grab drawing if you get the timing right.

-Guided missile minigame

Find the green-haired schoolgirl and return to the military base.

- Swimsuit Girls events (2 types)

After clearing the missile minigame, you can go to the pool.
The events start by approaching either of the girls at the poolside while Tiny.
Whether or not you get crushed depends on chance.

- Piss Attack event

Talk to the green-haired girl at the 2nd floor's northern wing. The event starts if you reveal what you know during the dialogue option.

- Candy Masturbation event

Use the card-key [found in the changing room by the pool after the missile minigame] to enter the elevator in the headmaster's office. Continue down the hall and give a candy (sold at the school shop, also found at the poolside) to the groggy girl by the desk.
After that, approach her again while Tiny.

- Attack on the Mini-garden Event

Talk to the two women at the innermost part of the Underground Research Lab and go to the shrunken city (1F, eastern wing).

- Main Event

Continuation of the above event.
Once you regain control, go down the stairs in the left side of the Underground Research Lab.

- Box Event

Once you regain control, examine the box while playing as giant Megumi.

- Main Event continuation

During the battle against Mao, she'll stop using magic if you Provoke her (skill menu), so use that opportunity to use the Sacred Treasure (item menu).
If you lose you'll continue towards the bad end. (Neither end is finished as of yet)

- Main Event conclusion

Created both endings, continued from the last update. I eventually plan to create one more. NOTE: Uru never did that; he abandoned the game's development. There are only two endings.
