

"Walkthrough" and what each part/chapter contains

Prologue

Fetishes - Oral vore, anal vore, unbirthing.

Scenes:

- 1.1. Succeed at the first QTE of the game to get oral vore with Clara.
- 1.2. Fail at the first QTE of the game to get anal vore with Anya.
2. Succeeding at either of the previous two scenes leads to a tug of war between Clara's poon and Anya's piehole. Each success makes the QTEs longer.
 - 2.1. Succeed at the first QTE and then fail over and over to get unbirthed by Clara.
 - 2.2. Fail over and over immediately to get muched by Anya. Winning this mini-game and then failing to hold on after Clara's cumming shoots you into Anya's mouth nets you a slightly different version of this scene.

Chapter 1: part 1

Fetishes - Oral vore

Scenes:

1. Only really one scene technically, so not much to say here. Failing two times in a row at any point gives the same outcome.

Chapter 1: part 2

Fetishes - Unbirthing, cock vore

Scenes:

1. The first split is after Emma forces herself on Penny's poor erection. You can pick to either enter Penny's donger, or stay at the tip.
 - 1.1 Entering her donger obviously leads to cock vore if you fail several times.
 - 1.2 Staying at the tip and failing makes you fall out, and then get jackhammered until you're pushed into Emma's womb, ending in unbirth.
 - 1.3 Succeeding at either one of these makes you end up in a pool of cum at the entrance to Emma's privates. Failing the next QTE pushes you into the unbirth ending.

Chapter 1: part 3

Fetishes - Oral vore, anal vore, unbirthing.

This chapter introduces a relationship mechanic that's supposed to come into play later.

Certain options will lower your standing with Nina, while others will increase it.

The first set of choices are:

- * Try not to blame her too much - she likes you more.
- * Avoid the question - no change.
- * It's hard to ignore what you saw - she likes you more.

The second set of choices are:

- * Give Nina the diving suit - she likes you more.
- * Keep the diving suit - she likes you less.

Scenes:

The scenes in this chapter work a bit differently. You get different outcomes both depending on your choices, and how well you do. Doing the "optimal" sequence just makes the QTEs

easier, or skips them entirely.

1. The first scene properly starts when Elena is sucking on Nina while you're holding her hand. You can't pull her out of Elena's mouth no matter what you do.

Outcomes:

- * If you run out of grip or stamina, or just let go, you'll be swallowed immediately after Nina.
- * If you kept the diving suit yourself, you'll be swallowed a second time by Nina (best sequence in the whole damn game, like damn!)
- * If you gave her the diving suit, she won't be there at all, having moved on to... dirtier tunnels.

The optimal sequence to win is regular, full, full, full, full, full.

2. Succeeding in keeping both grip and stamina from running out moves things along to you being forced to pleasure Elena's nethers.

Outcomes:

- * Running out of stamina or refusing to participate gives you a bad end in the form of anal vore.
- * Succeeding in making her cum has her insert you in her vagoo.

The optimal sequence to win the clit rub is rest, full, rest, regular.

3. The insertion scene uses the same mini-game as the last one.

Outcomes:

- * Running out of stamina or refusing to participate results in an unbirthing bad end.
- * Succeeding pops you back out.

The optimal sequence to win the insertion is rest, full, rest, full, regular.

4. Succeeding the insertion mini-game moves you on the final part of the chapter, the anal part. This one is back to the good old QTE.

Outcomes:

- * Fail the QTE and you get sucked in (same scene as failing the clit rub sequence, just with different dialogue).
- * Succeed and you pass out, with two different outcomes:
 - * If you kept the diving suit, you'll wake up and make your escape alone. Nina is dead.
 - * If you gave Nina the diving suit, she'll come crawling behind you to push you out and you escape together.
